TRANSFORM YOUR HEALTH AND THE HEALTH OF OUR NATION

THE DOCUMENTARY AND MOVEMENT.

Healing America is a powerful new documentary film and grassroots movement organized around the far-reaching benefits of a plant-based diet. The movement will empower you and your community to take back control of your health, and in the process, to establish a new social action platform with the power to heal our nation.

THE LAUNCH. We'll launch the film and *Indiegogo Campaign* on January 20 with a coast-to-coast tour featuring plant-based experts, Dr. T. Colin Campbell and Nelson Campbell.

THE MESSAGE. Together, they'll deliver a provocative and inspiring message along with valuable tools to give rise to a new social action model that enables you and your community to not only improve your health, but to address other important social issues.

HEALING COMMUNITIES. Initially, we'll select a city to bring the message of plant-based nutrition to everyone. We'll provide seminars and other educational tools, healthy and affordable food into underserved neighborhoods, and a powerful social network to build community and support local action.

SWEEPING THE NATION. We'll expand the model to communities around the country. As the movement sweeps across the nation, we'll hold a massive rally and concert in our nation's capital. We'll also produce an ongoing stream of short videos which will lead to the feature documentary.

Research shows that a plant-based diet can not only prevent and sometimes reverse chronic health issues, it can also address the environmental issues surrounding animal agriculture which has been shown to be the single biggest contributor to global warming.

The most important facet of the movement is to provide **all Americans** from every walk of life the ability to **take back control of their health**. Be a part of this important movement that will leave you feeling **empowered** and **hopeful** about **your health**, your **family's health**, and the **health of our nation**.
